

# Bay West® Dubl-Serv®

Two-Roll Vertical Toilet Tissue Dispenser

The Dubl-Serv® Two-Roll Vertical toilet tissue dispenser is ideal for any washroom setting where cubicle space is a consideration. The dispenser holds 1,250 sheets of 2-ply toilet tissue when at full capacity. The high capacity reduces continuous service visits and means product is always available to the user.

The Dubl-Serv® Vertical dispenser features an automatic drop-down mechanism which presents the new roll to the user once all the tissue on the first roll is completely used. This ensures easy access to the second roll and eliminates unnecessary waste.

- Reduces waste; roll in use must be completely exhausted before new roll is accessible
- High capacity dispenser; reduces service costs and ensures product is always available
- Translucent dispenser; refill requirements can be seen at-a-glance
- Lockable dispenser; eliminates pilferage and abuse
- Modern, stylish design; available in 5 modern colours to suit any washroom décor and to enhance image
