13148 Environmental Preferable Purchasing Program
- LEED-EB Units Available
- Environmental Management System (EMS)

## Our Partnership

Under the Javits-Wagner-O'Day Act (JWOD), Rochester Midland's Enviro Care line of products has been selected by the *Committee for Purchase From People Who Are Blind or Severely Disabled* and *National Industries for the Blind* as the brand name partner for environmentally friendly janitorial products. Lighthouse for the Blind in St. Louis is packaging Enviro Care, creating jobs for the disabled and bringing Enviro Care products to Federal and commercial customers. Enviro Care's evolution is truly encompassing sustainability.

## What is Green Housekeeping?

Establishing a standard to define environmentally preferable cleaning products has long remained one of the challenges preventing the cleaning products industry from developing safer products. The Environmental Protection Agency (EPA) recognizes Green Seal standards. Products are **Green Seal Certified** only after rigorous testing and evaluation by independent laboratories and the Green Seal Organization, indicating certified compliance to GS 37 standards. Having a third party verification, by Green Seal, has differentiated Enviro Care as being the only true Leaders in Green Housekeeping.

And, Enviro Care is part of your LEED-EB program and Environmental Management Systems (EMS).
